proudly presents

Caryl Picker

Emotional, philosophical, expressive—all fittingly define Caryl Picker's artistic works.

Her sculptured jewelry is filled with symbolism and personal style.

Caryl's technical and aesthetic approach—free standing, fully three dimensional tactile sculpture—translates as a natural progression into jewelry.

Her jewelry can be worn or enjoyed as a mounted piece of sculpture.

Please join us in the New York store to meet Caryl Picker and experience her distinct wearable art.
